INTRODUCTION

INTRODUCTION

Cet annuaire de la recherche reprend toutes les publications des membres du centre de recherche IESEG RESEARCH pendant l'année 2008. Le centre de recherche IESEG RESEARCH rassemble tous les enseignants permanents¹ de l'IESEG School of Management qui ont une activité de recherche significative. Provenant de 15 pays différents, ces enseignants-chercheurs forment une véritable équipe multiculturelle et contribuent directement au projet résolument international de l'Ecole.

La vocation d'IESEG RESEARCH est de faire progresser les connaissances dans les différents domaines du management et de l'économie appliquée. Ses membres visent à publier les résultats de leurs recherches dans des revues scientifiques reconnues internationalement, ou des ouvrages publiés par des maisons d'édition de renom.

Une partie des membres d'IESEG RESEARCH sont également membres du LABORES, ura CNRS 362, dont l'IESEG est une institution fondatrice.

DR. ERIC DOR

DIRECTEUR DE LA RECHERCHE

This Research Yearbook presents all the scientific publications made by our research center, called IESEG RESEARCH, during the year 2008. This research center gathers all the regular professors² of IESEG School of Management who display a significant research activity. Coming from 15 different countries, our researchers work in a true multicultural environment, and directly contribute to the international project of the School.

The mission of IESEG RESEARCH is to contribute to the increase in scientific knowledge in the fields of management and applied economics.

Members of IESEG RESEARCH conduct projects which are designed to lead to significant contributors, in the form of papers leading academic journals or books edited by major publishing houses.

¹ Les enseignants permanents sont des salariés de l'IESEG. Leurs activités de recherche sont financées par l'IESEG. Cet annuaire ne reprend donc **pas** les publications réalisées par les enseignants vacataires de l'IESEG, dont les activités de recherche sont financées par leur employeur principal (Université Etrangère, Université Publique Française, Entreprise,.....).

² *The regular professors are employees of IESEG. Their research activity is financed by IESEG. This yearbook does **not** contain the publications made by free lance professors of IESEG, since their research activity is financed by their principal employer (Foreign University, Public French University, Corporate Firm,.....)*
